**Comprehensive Spare Accessories**

| Sl. No. | Description                                                |                                                              | Price (INR) |
|---------|------------------------------------------------------------|--------------------------------------------------------------|-------------|
| 1       | Potentiometer (Single 1W / 3 W)                            |                                                              | 600         |
| 3       | Potentiometer (Tandem 1W/3W)                               |                                                              | 1200        |
| 5       | Precision Potentiometer (Single)                           |                                                              | 4400        |
| 6       | Precision Potentiometer (Tandem)                           |                                                              | 5600        |
| 7       | PS 02 (Replacment to PS 01)                                |                                                              | 10000       |
| 8       | CU 02 (Replacment to CU 01)                                |                                                              | 16500       |
| 9       | RWG 2002                                                   |                                                              | 9000        |
| 10      | RWG 2002G                                                  |                                                              | 10000       |
| 11      | RWG 2002DG                                                 |                                                              | 13000       |
| 12      | RWG 1001                                                   | These Parts have become obsolete, Supplied with EWG with RGU | 12900       |
| 13      | IWG 1002                                                   |                                                              |             |
| 14      | IWG 1003                                                   |                                                              |             |
| 15      | Space Heater sub-assly.                                    |                                                              | 750         |
| 16      | Auma Signal Isolator                                       |                                                              | 18000       |
| 17A     | TOLR (Range Upto 6 Amps)                                   |                                                              | 3250        |
| 17B     | TOLR (Range Above 6 to 16 Amps)                            |                                                              | 4750        |
| 19      | EWG : Non-contact type EPT wire (Output 4-20mA) (with Set) |                                                              | 10500       |
| 21      | Contactor - 9 AMPS (Weather Proof and Ex:proof)            |                                                              | 4000        |
| 22      | Contactor - 16 AMPS (Weather Proof and ExProof)            |                                                              | 6250        |
| 23      | Blinker Swich Assembly                                     |                                                              | 250         |
| 23A     | MPCB Upto 8 Amps                                           |                                                              | 7500        |
| 23B     | MPCB Above 8 Amps                                          |                                                              | 8150        |
| 24A     | 9 Pin connector (Male and Female)                          |                                                              | 1540        |
| 24B     | 9 Pin connector with Cable Set(Male and Female)            |                                                              | 2110        |
| 25      | 17 Pin connector (Male and Female)                         |                                                              | 2770        |
